
Week 9 – Meadows Results

Yes they are as stale as the beer I left in my golfbag that week but please see below for the spectacular results from the Meadows 2 weeks ago. It would not be right to deny Mullet his props for returning to a form we've not seen in some time. Of course it takes the Meadows to bring it out, but the conditions were the best we've ever seen there and apparently everyone was drinking from the fountain of youth that week. With 1/2 of the players breaking par Mullet had to go low, but be serious... Not only did he break 80 for the first time in forever with a season best 77 net 60, he almost did it twice. His second score of the week would have posted second place but that went to a suddenly resurgent XLPres who went 86 net 65. In third, and making a serious bid to convince us all he will be here in the end was Trooper D who went 94 net 66. Hard luck 4th went to Los, who had one bad hole and paid the price, and Paul M.

Meadows of Middlesex

Par	70
